

# HT4BX

## PREMIUM COMFORT HARNESS

**THE HT4BX IS A PREMIUM COMFORT HARNESS WITH 4 ATTACHMENT POINTS**

The attachment points are Rear Dorsal (primary anchor point), Chest, Ventral for rope access applications and Waist belt attachment for work positioning (The Fall Arrest points are marked on the harness with an A). Seven adjustment points to ensure superior fit and comfort. Light weight, moisture wicking and breathable mesh padding on shoulders and leg straps reduce pressure on the wearer and increase comfort. Multiple attachments and tool loops ensure correct placement of unused lanyards. Metal parts have a black surface coating for increased corrosion resistance. Branded rubber webbing end helps when adjusting the sizes. Packed in a premium shoulder strap bag, functionally designed for easy packing.
